

Polymax Prima

If your application requires exposure to severe weathering conditions, ozone and sunlight Polymax PRIMA general purpose CR is most suitable.

It offers moderate resistance to many types of oils (except halogenated and aromatic hydrocarbons) and greases and waxes

Material:	Chloroprene (CR)
Colour:	Black
Finish:	Plate Finish.
Hardness:	65sh Shore A (+/- 5)
Max. temp:	up to +110°C (avoid prolonged exposure)
Min. temp:	up to -20°C (avoid prolonged exposure)
Density:	1.5 (gcm ⁻³)
Tensile Strength:	5 MPa
Elongation At Break:	300%
Abrasion resistance:	300 mm ³
