

## KMVB Cab Mounts

### Oval Anti-Vibration Cabin Mounts or Cone Mounts

*Anti-vibration units designed to take high axial direction loads and isolate the movement of heavy machinery and equipment. They are typically used to support the cabins of road, rail and other vehicles. Our CAB mounts are available in a variety of shore hardnesses and compounds to suit to your application.*

#### Features:

- KMVB mounts feature 'voids' in the rubber to provide an alternative stiffness ratio
- Oval flat plate with two fixing holes
- Available in shore hardness range of 35-70
- Stainless steel available on request
- Rebound washers available to control and limit movement
