

Polymax Absorb

Polymax ABSORB is a self-extinguishing asphalt-free, polymer based airborne soundproofing membrane.

Colour	Black
Compound	NR/SBR
Density (specific gravity)	2.0
Hardness (Shore A)	60° ± 5°
Tensile Strength (Mpa)	2.5
Elongation at break	150%
Minimum Temperature	-10°C
Maximum temperature	+70°C

- High specific gravity of 2.0
- Suitable for reducing airborne sounds for wooden floors and lightweight plasterboard partitions
- Self-extinguishes
- Good ageing resistance and rotproof
- Not suitable for concrete floors or for isolating vibration

Acoustic Data
